

THE KENYA NATIONAL EXAMINATIONS COUNCIL

NOTICE

SUBJECT: RESULTS INDICATED XX & AB

The Kenya National Examinations Council has released the 2016 KCPE results. The candidates are accessing their results through short code 22252. Some candidates have received their results with an XX & AB indicated against some subjects.

This is to bring to your attention that this is as a result of index number errors. These errors include:-

- Incorrect shading of index numbers;
- Candidates mixing up index numbers;
- Multiple candidates using same index numbers;
- Candidates using different index numbers in different subjects;

When the above mentioned issues are corrected the actual results will be updated. Candidates therefore, are informed to continue checking their Examinations results. This will not have an impact on their form one selection.
