

MINISTRY OF EDUCATION
STATE DEPARTMENT FOR HIGHER EDUCATION
ANNOUNCEMENT

SPONSORED TRAINING COURSES BY THE ROYAL THAI EMBASSY.

The Ministry is in receipt of communication from the Royal Thai Embassy forwarding an invitation for candidates to apply for two training courses in Thailand namely:

1. “International Training Course on Environmental Immunotoxicology and Reproductive Toxicology” on 10th to 14th november,2025 with application deadline on **10th September 2025** and

2. “International Training Course on Environmental and Health Risk Assessment and management of Toxic Chemicals: Fundamentals of risk Assessment” beginning in **December 2025**, with application deadline on **10th October, 2025**.

Selected trainees will be financially supported by a Fellowship from the Chulabhorn Research Institute which includes Course fees ,round trip economy airfare, accommodation ,daily stipends,training materials and health insurance.

Candidates must complete an application form and send to the Embassy through the Ministry of Foreign and Diaspora affairs. Course details and fellowship application form are attached.

CALENDAR OF EVENTS

International Training Courses at Chulabhorn Research Institute

Scheduled for Fiscal Year 2025

Training Course	Dates	Duration	Participants	Closing Date
Fundamentals of Environmental Immunotoxicology and Reproductive Toxicology	November 10-14, 2025	5 days	20 pp.	September 15, 2025
Environmental and Health Risk Assessment and Management of Toxic Chemicals: Fundamentals of Risk Assessment	Beginning of December 2025	6 days	20 pp.	October 15, 2025

Course Coordinator: *Khunying Mathuros Ruchirawat, Ph.D.*

Course Description:

1. Environmental Immunotoxicology and Reproductive Toxicology

This course consists of 2 parts. The first part provides an overview of blood cells and the mammalian immune system, including a detailed description of all three arms of the immune response, how toxic chemicals can impact normal immune system homeostasis to result in adverse health outcomes, cellular/functional methodologies for determining the potential immunotoxicity of a given chemical, and how immunotoxicology relates to other scientific fields, such as drug development and risk assessment. The second part introduces hormonally active agents and their mechanisms of action; routes of exposure, bioaccumulation, distribution and metabolism; effects on reproduction and development in humans and animals; and methods for studying effects on the reproductive system.

Requirement: Participants should have some basic knowledge on the biology of the immune and reproductive systems, as well as methodologies for assessing the functioning of these systems.

2. Environmental and Health Risk Assessment and Management of Toxic Chemicals : Fundamentals of Risk Assessment

This course is an integration of science and policy, covering the fundamental basis of environmental health risk assessment and management of toxic chemicals, from hazard assessment, exposure assessment and risk characterization; the relationship between risk assessment and risk management; and the need for open, transparent and participatory acceptance procedures and credible communication methods. Emphasis will be placed on human health risk assessment, although the principles of ecological risk assessment will also be covered. Importantly, the course teaches the practical application of risk assessment methods to various problems through case studies relevant to problems faced in developing countries and describes the policy context in which decisions to manage environmental health risks are made. Teaching and learning aids, such as an electronic distance learning tool on risk assessment and risk management of chemicals and the WHO IPCS Human Health Risk Assessment toolkit, will also be introduced.

Requirement: Participants should have jobs/responsibilities related to assessment of risk from the use of chemicals.

Fellowship coverage: The fellowship will cover course fees, round-trip airfare, accommodation allowance, daily stipend, training material, and health insurance.
